

# Remove Protected Area Permit (PAP) From Manipur, India

Published by [Manipuri Association of Canada](#) on Dec 05, 2010

## **Background (Preamble):**

Hon'ble Shri Manmohan Singh, Prime Minister of India  
Hon'ble Shri P. Chidambaram, Minister, Home Affairs, India

Apropos, the 9th Pravasi Bharatiya Divas slated for January 7-9, 2011 in New Delhi - the Manipuris all over the world join the 24 million strong Indian diaspora to welcome the initiative to lay an elaborate platform for growth of Indians domestic and abroad. We are happy to note that India's North East Region will be focused during this event and that the Ministry of Development of North Eastern Region (DoNER) is an organiser.

While we acknowledge the special efforts of the government of India to boost the economic development of India's backward NE Region, we would like to draw your attention to the fact that some of India's archaic policies remain conflicting many of the new development initiatives in the Region defeating their purposes and objectives. One such policy potentially stopping the Manipuris from benefitting from the new programs of the Ministry of Overseas Indian Affairs (MOIA) is the Protected Area Permit (PAP).

PAP restricts the visit of foreigners to Manipur. It restricts even the overseas Manipuris born in India who wish to visit their home state, Manipur. The purpose of PAP as stated by the Indian Home Ministry is "protection of culture" of the people in certain places in the country. We do not understand in what way foreigners visiting Manipur for business or tourism can harm the Manipuris while they cannot do this to other Indians. In this age of globalization, the physical segregation of the people in Manipur from the overseas Manipuris and other foreigners does not relate anything to the protection of their culture. Rather, keeping them barricaded from foreigners will diminish their competitive abilities resulting in a crippled population. Manipuris have endured two millennia long history of their own, professed rich culture and performed illustriously in many fields at any level. They need exposure to a wider arena of competition and not protection in an enclosure to sustain their heritage.

PAP obliterates the rights and privileges of Overseas Citizens of India (OCI) or Person of Indian Origin (PIO) as these apply to the Manipuris. With OCI an overseas Manipuri will not have the right to freely visit and stay in his or her homeland in India while other overseas Indians enjoy these privileges. Even obtaining PAP by an overseas Manipuri for visiting Manipur sometimes poses an insurmountable problem as its application process is incongruous with that of visa timing.

The Confederation of Indian Industries (CII), Ministry of DoNER, and MOIA are trying to create grounds for attracting investments from overseas Indians and foreigners in tune with India's robust growth in all spheres. We assert that Manipuris in Manipur and elsewhere deserve a fair role in this cherished program. We fear that in the present circumstances, the progress India wants to make in the NE Region will go lopsided favouring the states without PAP in the same region while Manipur remains hamstrung by it. PAP makes India's genuine efforts to help its diaspora an unfair play leaving Manipur deprived of the opportunity. India's "Look East" policy envisages a large scope of interactions between India and various peoples and governments of the South East Asian countries through the North East corridor. PAP will significantly fetter all steps in this initiative.

In spite of its beauty, natural resources and vivacious people Manipur had to witness a general decline in value system among its populace during the past four decades of its socio-political strife. Perhaps a paradigm shift may be required in India's development approach in the NE Region from the subsidy dispensing mode to a capacity building one. Removal of PAP is one essential step in this line.

We are concerned that PAP opposes India's commitment of equality of rights, privileges and opportunities to its citizens as enshrined in its democracy.

Based on the reasons described above we strongly believe that removal of PAP from Manipur is a socio-politically and

economically sensible act for the Government of India.

**Petition Text:**

We the undersigned, the Manipuri people and their Friends from all over the world respectfully call upon the Hon'ble Prime Minister of India and the Hon'ble Home Minister of India to:

1. Acknowledge our deep resentment and grave concerns about the impediments the Protected Area Permit (PAP) brings to the socio-economic progress of the people of Manipur State by shunting international visitors away from the region.
2. Remove the Protected Area Permit (PAP) System from Manipur to allow unrestricted entry of foreign visitors and overseas Manipuris of Indian origin to Manipur with an aim at giving a fair chance to the people in the region to meaningfully participate in India's development programs involving foreign investments, international trade and tourism etc.
3. Encourage discussions about the unequal status between overseas Manipuris and other overseas Indians as OCI and PIO holders due to PAP during the 9th Pravasi Bharatiya Divas in New Delhi for necessary expert recommendations to remove the discrepancy.

One of the intended purposes of this policy was to protect the culture of the native people living there from the influence of outsiders. However, since it is quite easy for Indians to get an ILP, many Indians from other regions of India are moving to these regions. It is doubtful whether a large number of permanently residing Indians (from a significant different cultural background) are having a lesser impact on the culture of the tribals than temporary visiting tourists.  
-Food for thought-

The Indian Government should really help the long ignored eastern countries too, for their development in education for all and employment for all. Foreign investments and industries should be encouraged by keeping in the view of integrated and developed INDIA.

RAP is simply hindering our only means of economical growth and nothing else. Manipur is a land where no natural resources is available and so God has gifted us with beautiful nature and keeping this in mind we can at least rely little of our economic growth in tourism.

I wish to trek Dzuko valley, built camp in one of the floating islands of Loktak lake, visit the interior district of hills to provide basic education to poor children. This is just a beginning of what all I want to do in Manipur. However, when a person is put under numerous restrictions and fear of life he has no other option but to flee from that place, despite his love for his homeland. I'm sure many Manipuris feel the same. We only can save ourselves. Let's fight for our right!

The state/central government should take up their role seriously. Focus on the priorities first. The first thing that they should think and they SHOULD think out loud NOW is how to create more jobs(?) And one way is to remove PAP from the state so that more and more people can visit the state and in turn will give more revenue...

Protected Area Permit (PAP) should be removed from Manipur. Due to this, Manipur government and people are losing foreign tourists and this leads to the delay in economic growth of the state. The more the people of Manipur engage with the international tourists the more will be the learning curve and exposing to the international level. Let's learn and leave like the rest of the other civilized country.

This is an extremely important petition because of various reasons. For time being, my issue is that the central govt. has limited/no knowledge about Manipuri culture except few Manipuri dances and mongoloid features. I only want to raise a question here: " How the central govt of India is going to protect something they don't know through PAP of MOIA? Does it even know the responsibility associated with the word 'PROTECTION'?

We the undersigned, the Manipuri people and their Friends from all over the world respectfully call upon the Hon'ble Prime Minister of India and the Hon'ble Home Minister of India to:

1. Acknowledge our deep resentment and grave concerns about the impediments the Protected Area Permit (PAP) brings to the socio-economic progress of the people of Manipur State by shunting international visitors away from the region.

2. Remove the Protected Area Permit (PAP) System from Manipur to allow unrestrict

PAP is a hindrance in the road to Manipur's socio-economic development. A place rich in its tourism, art and culture always have a better chance of development. But where the hell is development? where are we heading? It feels as if we have been segregated from the rest of the world. It is high time for us to join hands in hands and fight for our identity.

Removing the PAP from the northeastern states of India and will help the states in many ways. most people doesn't know that there is state call MANIPUR in India, many people in India itself doesn't know that Manipur is a part of India, and the policy of PAP is responsible upto some extent for this unawareness. removing the PAP will open for doors for economic improvement, create more job and handle more responsibility on the shoulder of State Govt.

In this world of globalisation why should there be an archaic permit like PAP in this region. we are subjugated in the past and a colony of British, there has been a halt in the natural growth and customs and tradition because of the colonial rule. Infact by opening up the restriction in foreigners entry the regional index in terms of its culture, mankind, flora and fauna, the landscape will be open to the global reach individually. restricting the entry is making the region unfriendly to others

I live & work in UK, naturally I have made many British friends . PAP restricts the exposure of Manipur to the world, one we so badly need. Normality is only the route to 'normality'. When people are busy with their normal lives, opens to business, participates & competes with the world on a global basis, only then 'people' will start to live a normal peaceful life. Peace can't be achieved by imposing force & restrictions. Its time we all realise this as a global trusting citizens of the world!

This law has restricted entry of tourists to Manipur state. The global Manipuri community is growing everyday. If not tourists, this community is not able to bring their friends to Manipur with ease. This law is a burden to most people who wants to visit Manipur. For the record, if this law was imposed because of insurgency, we need to make a note that insurgency in Manipur has not harmed any foreign national till date.

Removal of PAP from Manipur will benefit families of Manipur origin living in other parts of the world in visiting their birthplace. Marathis, Biharis, and Tamils living outside India can visit India and stay for months without any extra permission, why do Manipuris need extra permission that too for just 16 days?????Doesnot make sense. India should come out of fearsome and should not impose illegal laws like PAP/AFSP/RAP to small state like Manipur.

PAP is just like border fencing between my land and out side world. I don't know why this barrier imposed in Manipur by the Govt. of India. Will it be consider as Govt. of India giving us (Manipuri) right to live? "World is a Global Village" then where is the meaning of it? We are the responsible for protecting our religion, culture and tradition, not the other person. We are always inviting friends from other part the world. If doing this is illegal then why it is deference between amongst Indi

**588 Dilipkumar Ngangomcha**[Back to signature list](#)

Why! PAP (Protected area permit) specially in Manipur? No doubt it is the hindrance to the state for her development. Remove PAP and let Manipur state come up.

**587 Mahendra Kangjam**[Back to signature list](#)

In Manipuri, "PAP" carries a negative implication. Protected area permit (pap) is not the best way to protect one's culture. There is no reason to imprison people in their own country by limiting them from participating in activities that can lead to national development. PAP will actually never preserve Manipuri's culture but will lead to cultural lag due to a lot of ignorance. Allow free mixture of manipuris with other cultures so they may be able to learn and share their culture with the rest of the world.

I strongly believe the diplomatic policy should be fair and welcome to the prosperity of peoples in its country. Application of such with target regional chaos and lead to mass discontentment and hatred towards the centre. Economic prosperity and welfare should be openly promoted and encouraged rather than strangled it, which happens by such act.

Unless the Union is carrying out a psychological war and ethnic cleansing [we understand you need to safeguard the Hindu civilisation because it's the only one you have], it's time the representatives begin to respect history and the people. 63 years is a long time. If it is the former [which has more probability because the representatives aren't fools] it is outright war, and the Union cannot claim moral authority over the various violence-led movements. History always wins!
